

THE BEST OF BOTH WORLDS

By

**DR. SARAH E. McMILLAN,
DR. DANIEL J. LIEBERTZ**

YARROW BAY PLASTIC SURGERY
KIRKLAND, WASHINGTON

ffering their patients a safe haven to undergo surgical and medical spa services, board-certified Drs. Sarah E. McMillan and Daniel J. Liebertz provide concierge care at their boutique practice. Supported by a team of nurses that specialize in plastic surgery and a former ER nurse, the doctors provide the utmost in safety in their state-of-the-art surgical suite. "Patients decide to undergo plastic surgery after much thought, and once they come in to our practice, they know they're in the right place for their journey," says Dr. McMillan. With an in-office operating suite and on-site medspa, their combination approach allows them to customize a plan that yields the most natural-looking outcome.

It's incredibly rewarding to help a patient feel confident.

WHO WE ARE

1.

WHAT WE LOVE MOST ABOUT OUR PROFESSION

We especially enjoy the artistry and the variety. As surgeons, we always have a plan, but every operation is different. It's gratifying to have the education and training to be able to do what each patient needs and to attain the results that will make them happy

2.

WHAT ACCOLADES MEAN THE MOST TO YOU?

Patient referrals mean the most to us — they tell us that we've earned your trust

3.

WHAT SETS OUR PRACTICE APART

Our practice is designed to remove the intimidation from plastic surgery. Hardwood floors, bedside tables, fresh flowers and a chandelier in the reception area create a welcoming environment. Instead of paper gowns, our patients wear fuzzy robes. It can be difficult and scary to admit the things you don't like about yourself out loud. We want patients to feel comfortable throughout the entire process

4.

WHAT IS YOUR APPROACH TO PLASTIC SURGERY?

Our approach is to provide natural-looking results that improve upon what our patients already have. Our goal is to help patients find their inner confidence and feel beautiful—to make them look the best that they can without anyone knowing why they look so good

5.

HOW DO YOU PROVIDE THE SAFEST ENVIRONMENT FOR YOUR PATIENTS?

Our AAAASF-accredited and state-certified in-office surgical suite is staffed only by board-certified surgeons and anesthesiologists in order to provide a safe environment for all of our patients

6.

WHAT ARE YOU BEST KNOWN FOR?

Mommy Makeovers, breast surgery, quick recovery mini-lifts and natural-looking injectable results with almost no bruising and minimal downtime

A Lift After Weight Loss

This 44-year-old patient was unhappy with how her breasts looked after a significant weight loss. A bilateral breast lift using 285-cc high profile silicone implants gave her the lifted look she desired.
